Federal Partners & Funding Avenues

Unfortunately the Town did not qualify for FEMA Assistance however,

- Escambia County entered into an Interlocal Agreement with the Northwest Florida Community Housing Development Corporation, a non-profit set up by Pensacola Habitat for Humanity to leverage tax credits with the Escambia County State Housing Initiatives Partnership (SHIP) program funds

- Approximately $2.2 million in SHIP funds are available to the County/Town of Century

- Total of $600,483 are currently set aside in CDBG funds

- There is still a lot of works to do.............
