概况介绍
General introduction

线性文化遗产与古道

中华大地幅员辽阔，悠悠5000年，留下了
众多珍贵历史文化遗迹。其中较为著名的
线性文化遗产包括：

- 丝绸之路
- 茶马古道
- 长征大迁走
- 长城
- 青藏公路

古道是古代中国的“高速公路”，对维护
中国领土统一、政治稳定，人口迁移，文
化传播具有重要意义。
Historical Trail + Culture

With the full intention of preserving the local historical roots and inheriting Chinese civilization, the administration encourages Canton-based artists to create pieces such as songs, prose and paintings with Yongzhou Historical Trail as their overarching theme to help preserve and rediscover the trail’s cultural heritage, and folklore legends. It also brings in tech-savvy visual artists who may sketch out cartoon characters to re-present classic tales and historical figures and help rejuvenate the tribal villages.
Mississippi Blues Trail

Experience the Blues where they were born.

Welcome to the Mississippi Blues Trail, your unforgettable journey into the land that spawned the single most important root source of modern popular music. Whether you’re a die-hard blues fan or a casual traveler in search of an interesting trip, you’ll find it here you didn’t know, places you’ve never seen, and you’ll gain a new appreciation for the music that gave birth to the blues.

The Sino-America Land Engineering Cooperation Conference is a grand annual conference in the land engineering field. It has been successfully held for three years. This Conference is jointly organized by the Department of Land and Resources of Shangai, State-owned Assets Supervision and Administration Commission of the People’s Government of Shangai and the Department of Foreign Experts Affairs of Shangai, undertaken by the International City/County Management Association (ICMA), Shanghai Land Engineering Construction Group Co., Ltd. and Xi’an Jiaotong University (XJTU).

The theme of the Conference is "Urban Land Quality and Human Living Environment". Referring to technologies of polluted land recovery, construction of human living environment, policies and laws of contaminated land prevention, this conference is aimed to discuss construction and development of Human Living Environment and the technical measures for land ecology development.

During this conference, the leaders from Shangai Government, Ministry of Natural Resources, International City/County Management Association (ICMA), State Administration of Foreign Experts Affairs of China, academicians of Chinese Academy of Science, academicians of Chinese Academy of Engineering will deliver speeches. More than 200 important persons were invited to attend the conference, including academicians of the Chinese Academy of engineering and the Academy of Sciences, the leaders from Provincial Department of Land and Resources, Provincial Bureau of Foreign Experts and other departments, leaders from Department of Land and Resources of other provinces and cities, the leaders of provincial relevant departments, provincial state-owned enterprises leaders, experts and professors from various universities, responsible persons for the national science and technology planning projects and subjects in the field of land, persons in charge of scientific research in public welfare industry, etc. More than ten experts including National academician Zhou Weijian, U.S expert George Naslas will deliver their reports.

The conference will give full play to the functions of bridges, setting up a platform for domestic and foreign experts to exchange experience, technology and policy, so as to find scientific and rational solution of solving urban land pollution and improving of human living environment. It will open up ideas and methods for land management and human settlement in China.
Wall of fame!
A little about PPM Consultants

AIR, WATER, AND WASTE COMPLIANCE
- Air Permitting, Compliance and Reporting
- Water Permitting, Compliance and Reporting
- Hazardous Waste Permitting, Compliance and Reporting
- Environmental Compliance Audits
- Tank Management and Compliance

ASSESSMENT AND REMEDIATION
- Soil and Groundwater Assessment
- Soil and Groundwater Remediation
- Vapor Intrusion Assessment & Mitigation
- Risk Assessments
- Emergency Response Oversight
Brownfield Recycling in Rural Mississippi
